

SURESH S

Senior Data Annotator | Onsite Team Lead | AV & ADAS Annotation Specialist

+91 6380421140 | sureshpersonal2k26@gmail.com | Bengaluru, Karnataka, India

[linkedin.com/in/suresh9944](https://www.linkedin.com/in/suresh9944) | github.com/sureshpersonal2k26-creator | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven IT professional with 4+ years of experience in data annotation and autonomous vehicle (AV) perception systems. Currently serving as Onsite Team Lead at ASPL, delivering annotation projects with 97%+ accuracy. Deep expertise in 3D LiDAR cuboid annotation, sensor fusion (Camera + LiDAR + Radar), ADAS perception labeling, NLP annotation, semantic segmentation, HD map validation, and quality control. Proven leadership in team management, workflow optimization, and mentoring junior annotators.

CORE COMPETENCIES

• 3D LiDAR Cuboid Annotation	• Sensor Fusion (Camera+LiDAR+Radar)	• Semantic & Instance Segmentation
• HD Map Validation	• NLP Data Annotation	• Quality Control & Peer Review
• ADAS System Understanding	• Team Leadership & Mentoring	• Annotation Guideline Development
• 2D Bounding Box & Polygon/Polyline	• Image & Logo Labeling	• Python JavaScript HTML/CSS

PROFESSIONAL EXPERIENCE

Senior Data Annotator / Onsite Team Lead

Apr 2025 – Present

ASPL (Anmerkung Solutions Private Limited) | Bengaluru, Karnataka, India

Annotation & Labeling:

- 3D Bounding Box (Cuboid) annotation for vehicles, pedestrians, cyclists, static and dynamic objects in LiDAR point clouds
- 2D Bounding Box, Polygon (drivable area, traffic signs), and Polyline (lane markings, curb lines, road edges) annotation
- Semantic Segmentation and Instance Segmentation on large-scale camera datasets for AV perception model training
- Sensor fusion annotation aligning Camera, LiDAR, and Radar data for accurate 3D scene reconstruction
- NLP dataset annotation — intent classification, named entity recognition (NER), and sentiment labeling
- Image annotation, logo labeling, and brand recognition dataset preparation for visual AI models
- HD Map validation — verifying lane geometry, road markings, and traffic sign positions against ground truth

ADAS & AV Domain Knowledge:

- Hands-on knowledge of Lane Detection, LDW, ACC, AEB, FCW, and TSR — Object Detection and Tracking, Drivable Area Mapping
- Objects annotated: vehicles, pedestrians, cyclists, traffic lights, road/lane markings, poles, barriers, and buildings

Team Leadership & Quality Control:

- Led onsite annotation team — daily task allocation, SLA monitoring, and client communication
- Conducted QC and peer review maintaining annotation accuracy above 97% per client guidelines
- Trained and mentored 10+ junior annotators; standardized labeling guidelines for dataset consistency

Data Annotator

Mar 2024 – Mar 2025

Objectways Technologies | Coimbatore, Tamil Nadu, India

- Created and managed high-quality annotated datasets for NLP and computer vision ML projects
- Utilized AWS SageMaker Ground Truth to annotate text and image data per project specifications
- Performed QA checks on annotated data, reducing error rates by 20% through systematic review
- Proposed process improvements resulting in 15% increase in annotation efficiency across the team
- Collaborated with data scientists and ML engineers to develop and refine annotation guidelines

KEY PROJECTS

AV Perception Dataset — 3D LiDAR & Camera: Annotated 50,000+ camera and LiDAR frames for AV perception. Applied 3D cuboid labeling, sensor fusion, and QC-validated exports for ML pipeline ingestion.

NLP Data Annotation Pipeline: Built workflows for intent detection, NER, and text classification. Maintained 95%+ accuracy with inter-annotator agreement checks.

HD Map Validation — Highway & Urban: Validated lane geometry, road markings, and traffic sign metadata. Improved map accuracy by 18% for client AV deployments.

WFH Attendance & Task Tracking Web App: Full web app for KLS VDIT Instrip under Arcttern Solutions — GitHub Pages. Stack: HTML/CSS/JS, localStorage, EmailJS, SheetJS.

Interactive HTML Quiz Tool — Elwood CMS: Browser-based annotator training and quality assessment tool for the Elwood CMS data annotation project.

TECHNICAL SKILLS

Annotation Tools: CVAT | AWS SageMaker Ground Truth | NVIDIA UAI/TAO Toolkit | Kognic | Supervisely | Label Studio | Dataloop

Annotation Techniques: 3D LiDAR Cuboids | 2D Bounding Box | Semantic Segmentation | Instance Segmentation | Polygon | Polyline | Keypoint | Sensor Fusion | NLP Annotation | Image & Logo Labeling | HD Map Validation

ADAS & AV Domain: Lane Detection | LDW | ACC | AEB | FCW | TSR | Object Detection & Tracking | Drivable Area Mapping | Point Cloud Processing | Camera Calibration

Programming: Python | JavaScript | HTML5 | CSS3 | Django | Flask | React.js | Bootstrap | Node.js | SheetJS | EmailJS

Tools & Platforms: Git | GitHub | GitHub Pages | Netlify | VS Code | Figma | Canva | Photoshop | Microsoft Excel | AWS SageMaker | AWS Skill Builder

EDUCATION

Bachelor of Commerce (B.Com) — Distance Learning	Sikkim Manipal University	2023 – Present
DAE — Diploma in Automobile Engineering (Rank Holder)	Sri Krishna Institute of Technology	2019 – 2022
Python Full Stack Developer Training	Refinement Software Solution	Jul 2023 – Dec 2023
MMV — Mechanical Motor Vehicle	Government ITI	2017 – 2019

CERTIFICATIONS

- AWS Skill Builder — Cloud Fundamentals & Practitioner Essentials | Amazon Web Services
- Data Analytics & Visualization Job Simulation — Accenture North America via Forage (August 2024)
- Figma UI/UX Design Certification — GUVI
- Rank Holder — DAE, Sri Krishna Institute of Technology (2019–2022)

DECLARATION

I hereby declare that all the information provided above is true and correct to the best of my knowledge and belief.

Place: Bengaluru

Date: 01 May 2026
